

- Grown Holistically, Probiotically, and Sustainably
- No Synthetic Pesticides or Inputs
- Abundant Full-Spectrum Terpene Profiles
- Expertly Greenhouse-Grown in the California Sunshine

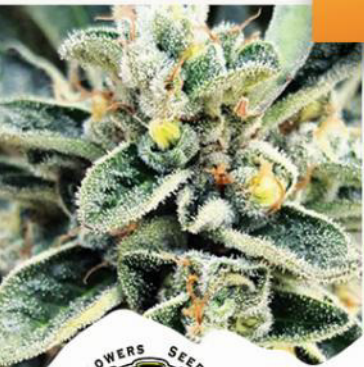

SINCE 2005, MOONTIME MEDICINALS OF HUMBOLDT COUNTY HAS WORKED INTIMATELY WITH NATURE TO PROVIDE EXTRAORDINARY CANNABIS PRODUCTS.

Consumers in California have the most developed cannabis palates in the world. When you choose to stock Moontime Medicinals, you are choosing to provide an ultra-premium flower that will keep your customers coming back.

We have no interest in competing with industrial-sized cannabis producers. The flowers we grow and the small-batch concentrates we produce with our partners are intended for a more sophisticated audience with the experience to recognize exceptional terpene profiles, curing and aesthetic flower characteristics.

WE ARE A FAMILY FARM GROWING ON OUR OWN HOMESTEAD.
MOONTIME IS PROUD TO REPRESENT THE VALUES OF HERITAGE
FARMERS IN THE EMERALD TRIANGLE.

WE SEE OURSELVES NOT ONLY AS YOUR "BEYOND ORGANIC" CANNABIS FARMER BUT EQUALLY AS STEWARDS OF THE LAND

IN LOVE WITH NATURE

We incorporate a wide range of permaculture and probiotic farming techniques so that you can be assured that your cannabis will not only be grown to delight you, but also will be synthetic chemical free. When you choose Moontime, you can be secure in the knowledge that your cannabis was grown in cooperation with nature instead of stolen from nature.

We companion plant non-cannabis species alongside our cannabis for an array of benefits such as attracting beneficial insects and trapping garden pests. We use cover crops to fix nitrogen, retain moisture and encourage living soils. We use rainwater catchment and store spring-fed water in the winter, leaving water in the local streams during the hot summers. We also incorporate practices that curtail sediment and nutrient runoff into the surrounding watershed. This "closed-loop" farming technique means that we can deliver rich-tasting and aromatically powerful cannabis while protecting the environment and often, improving it.

Please enjoy Moontime branded flowers, extracts, distillate, and rosin with the knowledge that they will be aromatic and were produced holistically, in love with nature.

Moontime Medicinals is a proud supporter of the Save Van Arken project protecting vital forest land.
